

Mutual Fund FAQ Assistant – Business Requirements Document (BRD)

Groww-Inspired Facts-Only Mutual Fund FAQ Assistant

Executive Summary

Build a lightweight FAQ assistant that answers factual mutual fund scheme questions using official AMC, SEBI and AMFI sources. Every response must contain a citation and no investment advice may be provided.

Problem Statement

Users struggle to find reliable information such as expense ratio, exit load, lock-in period, benchmark, riskometer and statement download processes across multiple documents and websites.

Business Goals

- Accurate fact retrieval
- 100% citation coverage
- Advice refusal compliance
- Reduced support effort
- Transparent source-backed answers

Target Users

Retail investors, support teams and content teams requiring factual mutual fund information.

Scope

One AMC with 3–5 schemes. Corpus built from 15–25 official AMC, SEBI and AMFI documents including factsheets, KIMs, SIDs and FAQ pages.

Core Features

Answer factual queries, provide citations, refuse advice questions, display example prompts and maintain source transparency.

Functional Requirements

Expense Ratio, Exit Load, Benchmark, Riskometer, Lock-in Period, Minimum SIP, Statement Downloads, Capital Gains Statements, Source Citations and Advice Refusal.

Non-Functional Requirements

Response under 5 seconds, source-grounded answers, no hallucinations, no PII storage, mobile-friendly UI.

User Flow

Landing Page → Login → Welcome Screen → Chat Interface → Answer with Citation.

Architecture

User Query → Intent Classifier → Retriever → LLM → Citation Formatter → Response.

Deliverables

Working prototype, source list, README, sample Q&A; file and disclaimer.

Acceptance Criteria

Every answer must include a source, advice queries must be refused, only official sources may be used and no PII may be collected.
